

Autumn at Montessori Village Green

November
2025

A Director's Fall Update

Dear Families,

As we say goodbye to the warmth of summer and welcome the cool embrace of autumn, we're filled with excitement for the season ahead. The crisp air is upon us, and with it, new opportunities for growth, both in our gardens and in our classrooms. This is a time of year when we begin to dive into the wonders of nature, learning about the plant life cycle, how to plant, grow, and care for our gardens in preparation for the harvest. It's a wonderful hands-on experience for our young learners and an essential part of our Montessori curriculum.

This past month has been full of exploration and connection. The children at Montessori Village Green have been getting to know one another as classmates and friends, while also learning how to care for their environment and themselves. It has been such a joy to watch them grow in independence and confidence. Their bright smiles and eagerness to embrace each new day are truly heartwarming!

We've also had the pleasure of celebrating some special occasions. We honored Grandparents' Day with crafts and healthy snacks, making sure our grandparents felt loved and appreciated. It was such a beautiful moment of connection between our students and their families!

Additionally, we celebrated Maria Montessori's Birthday and International Peace Day in our own special way. The children joined together to sing around our wonderful peace pole, reinforcing the values of respect, kindness, and peaceful coexistence. These celebrations remind us of the core principles of Montessori education and the importance of nurturing not just intellectual growth, but also the development of compassion and peace within our community.

As we continue into the season, we look forward to more exciting adventures, growth, and shared learning experiences. Thank you for your ongoing support and for entrusting us with the privilege of guiding your child's education.

Wishing you and your family a peaceful and joyous autumn season ahead!

Warmly,
Alia Hartwick
Director, Montessori Village Green

Welcome Amanda!
